These terms of reference (TOR) describe:

- Part B: Welfare Expert Advisory Group – detailed function and operations

General matters

1. This document is a Terms of Reference approved by Cabinet following Ministerial consultation, and consultation with the Chair of the Welfare Expert Advisory Group (WEAG).

2. The Terms of Reference will remain in effect until 28 February 2019.

3. Decisions on any continuation of the WEAG beyond 28 February 2019 will be made by Cabinet in March 2019, following consideration of the WEAG advice.

4. The Minister will consult with Cabinet on any substantive proposed change to the Terms of Reference, and these Terms of Reference may be reviewed and amended by Cabinet at any time.
Introduction

1. Many of the main planks of the welfare system have been in place since the current Social Security Act was enacted in 1964. Since then, there have been significant social and economic shifts that have shaped New Zealand’s social welfare landscape. Today, we experience pervasive and persistent inequities across a number of areas, and a growing concern for the marginalisation of different groups of New Zealanders. There is growing homelessness and complex housing demands alongside rates of poverty that are too high. It is timely at this critical juncture to evaluate whether our social welfare system remains fit for purpose in contemporary New Zealand.

2. The Government’s vision is for a welfare system that ensures people have an adequate income and standard of living, are treated with and can live in dignity and are able to participate meaningfully in their communities.

3. The welfare system is part of an integrated Government approach that enables people to be earning, learning, caring or volunteering and ensures a dignified life for those for whom these options are not possible.

4. This Government acknowledges that an improved social welfare system is also an important lever to achieve one of its main priorities of improving the wellbeing of children, especially those who are economically disadvantaged, and to reduce the rates of children experiencing poverty. The emphasis of our social welfare system is on delivering compassionate, timely and appropriate support for those in need.

Objective

5. The Welfare Expert Advisory Group (the WEAG) is being established to provide advice to the Government on options that could best give effect to its vision for the future direction of the social welfare system.

Scope

6. The WEAG will advise the Government on:

- amendments to the legislative purpose and principles of the Social Security Act that give effect to the vision and direction of the Government
- how any amendments to the purpose and principles in the Act could be implemented system-wide
- advice on other changes needed to ensure the system achieves the Government’s vision for the Welfare System
- changes to obligations and associated sanctions applied to beneficiaries to ensure alignment with the Government’s vision
- high level recommendations for improvements to Working for Families
- recommendations for areas where the interface between the welfare system and other systems need to be improved either because they are not functioning well or in light of the Group’s work on giving effect to the future vision for the welfare system – for instance:
  - ACC, education and training, housing, health and justice
7. The WEAG will also engage with and provide insights and recommendations about the work underway within MSD on achieving meaningful and lasting change within Work and Income to ensure that beneficiaries are treated with dignity and respect in all their interactions with the system.

8. The Minister for Social Development may also seek the WEAG’s advice and views on specific Government proposals for reform in the context of Budget 2019.

Approach

9. In considering how to give effect to the Government’s vision the WEAG should give due consideration to:
   - the evolving nature of contemporary New Zealand – changes to family structures, social needs and the changing labour market, and how these significant shifts might impact the future direction for the Social Welfare System.
   - ensuring simplicity in the social welfare system so that it is easy to understand, and people know about and are able to receive the assistance they are entitled to
   - economic and technological changes
   - ensuring good transitions to meaningful and sustainable employment as well as other positive outcomes are also recognised and valued (such as participation in the community and voluntary work)
   - improving outcomes for groups of people disproportionately impacted by negative social outcomes such as Māori, Pacific Peoples, youth, disabled people and people with health conditions.
   - how child wellbeing might be improved by the recommendations
   - the fiscal sustainability of their recommendations

Interactions with other Government work programmes

10. The WEAG should give due consideration to interactions between the welfare overhaul and related Government work programmes such as the Tax Working Group, Child Wellbeing Strategy (including the Child Poverty Strategy), and the Housing Strategy.

Out of scope

11. The following are outside the WEAG’s scope:
   - New Zealand Superannuation (NZS)
   - Veteran’s Pension and War Pensions
   - Student Support System

12. While the above areas are excluded from scope, the WEAG may require flexibility to consider some matters relating to those systems. This may include areas relating to issues created as a result of interfaces between the systems, or areas where clients may experience the same issues or complaints across the systems.

Engagement

13. The WEAG must take a participatory and independent approach that prioritises the experience of people interacting with the welfare system.

14. The WEAG will be required to undertake appropriate consultation with key stakeholder groups, including but not limited to iwi and Māori, Pacific Peoples, and disabled people.
