

Examples to demonstrate new annual ACC levy payments

Earner's account

Notes

- Every year, ACC sets the minimum and maximum amounts for earnings that people are liable to pay ACC levies on, meaning levy payers won't pay levies on anything they earn under the minimum or over the maximum amount.

Motor vehicle account

Notes:

- The actual levy paid for a petrol car and motorcycle is only the vehicle licensing component and excludes the petrol component
- A ride forever discount has been introduced from the 2026 levy year for all people who have completed the course within the last two years
- The motorcycle rates below assume that a RideForever training course is not attended and exclude the Motorcycle Safety Levy
