How to use next generation SmartGate

On departure, hand in your passenger departure card to the border official.

1. Stage 1, place your ePassport into the reader located at the front of the eGate. If you are eligible, the entry gate will open.

2. Stage 2, enter, look directly at the camera and follow the instructions on the screen.

3. If your image matches the image in your passport you can proceed through the exit gate.
