

Estimated rates of new planting and deforestation from 2001 to 2012

	New planting (ha) ¹	Deforestation (ha) ²	Estimated net change in forest area (ha)
2001	30,000	1,800	28,200
2002	22,000	1,100	20,900
2003	20,000	1,700	18,300
2004	11,000	1,700	9,300
2005	6,000	7,000	-1,000
2006	3,000	12,900	-9,900
2007	2,000	20,000	-18,000
2008	2,000	3,500	-1,500
2009	4000 f	3,500	500
2010	7,000	2,300	4,700
2011	8,000	2,300	5,700
2012	10,000	2,300	7,700

Notes:

f = forecast. All values from 2010 onwards are forecasts

1. Estimated new planting from 2001 to 2008 are from the National Exotic Forest Description (NEFD).

2. Estimates deforestation up to 2006 are based on NEFD surveys and are March years. Deforestation for 2007 and 2012 are based on Deforestation Surveys (Manley, 2009 and 2010) and are for December years.
