

Numbers and percentages of students achieving UE since 2004

The following table contains the numbers and percentages of students achieving UE since 2004. The figures are for Year 13 students obtaining UE, although it should be noted that some students achieve UE in other year levels.

The percentages provided are based on a calculated participation which identifies a student as a participant if they are entered for sufficient credits to have had an opportunity to achieve the qualification concerned.

The data provided for 2014 is provisional. Final results will be available at the end of March.
